

LANDSCAPING

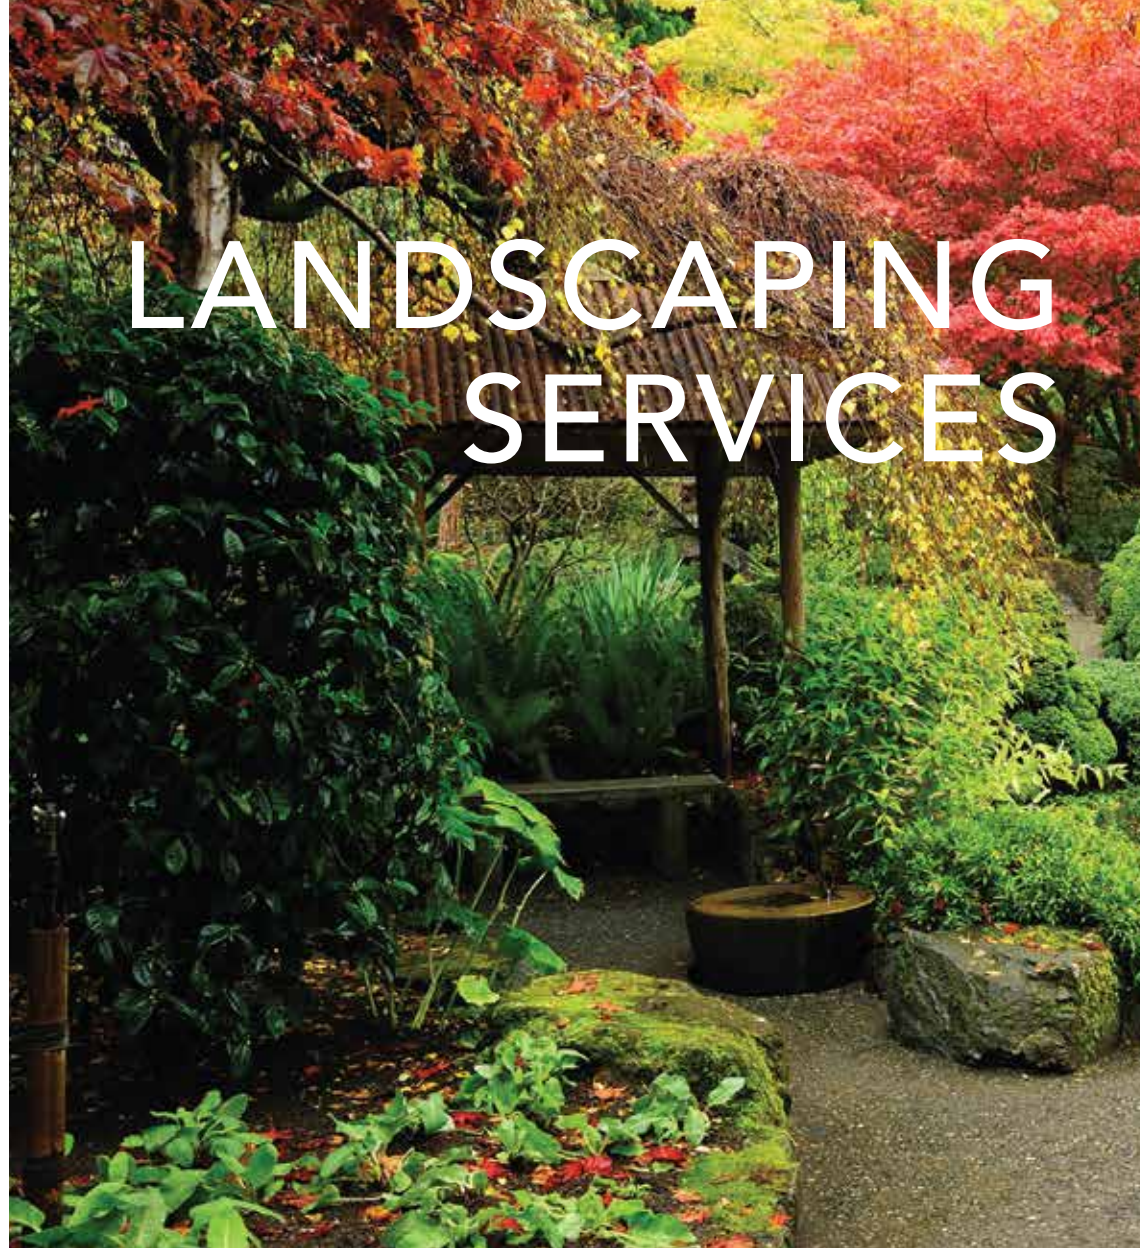

NLA in partnership with Skye Innovations offer innovative and expert garden design, maintenance and landscaping. We create affordable solutions without compromising on innovation and quality. We specialise in transforming dull spaces into beautiful gardens and landscapes, where one can relax, unwind and enjoy the tranquillity of nature.

- Garden and Landscaping design:
Let us turn your dreams into reality.
- Garden construction:
With our specialised and professional team.
- Lawn installations:
Choosing the correct lawn is extremely important. For example if you have pets and you install the wrong lawn their urine will kill the grass.
- Lawn dressing:
Ensures that your lawn stays healthy all year round and green in summer.

LANDSCAPING SERVICES

- Water features:
We design and install beautiful and creative water features that create spaces where you and your family can relax and unwind.
- Irrigation:
Every garden needs to be properly watered and the easiest way to manage this process is to install a suitable irrigation system.
- Fire-pits and entertainment areas:
Create family memories.
- Garden lighting:
A garden should be equally as beautiful and enchanting at night as it is during the day.

NO GARDEN IS
TOO BIG OR TOO
SMALL FOR US

- Commercial landscaping:
Improve your customers experience when they visit your company with beautiful indoor and outdoor garden spaces.
