LOTEx SOLID COMPOSITE DECKING PRODUCTS

The Lotex range of quality imported solid composite decking products will finish and compliment your housing projects and building investments.

LOTEx
DECKING

The Lotex range of imported solid composite products is suitable for the following outdoor applications:

- Decking, cladding, pergolas balustrades, gates and outdoor benches
- Seaside and wetlands
- Water platforms
- Park roads, landscaping and municipal projects.

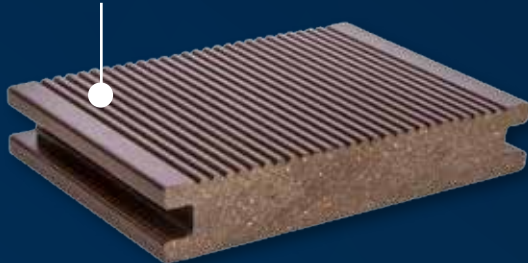

SOLID COMPOSITE DECKING PRODUCTS

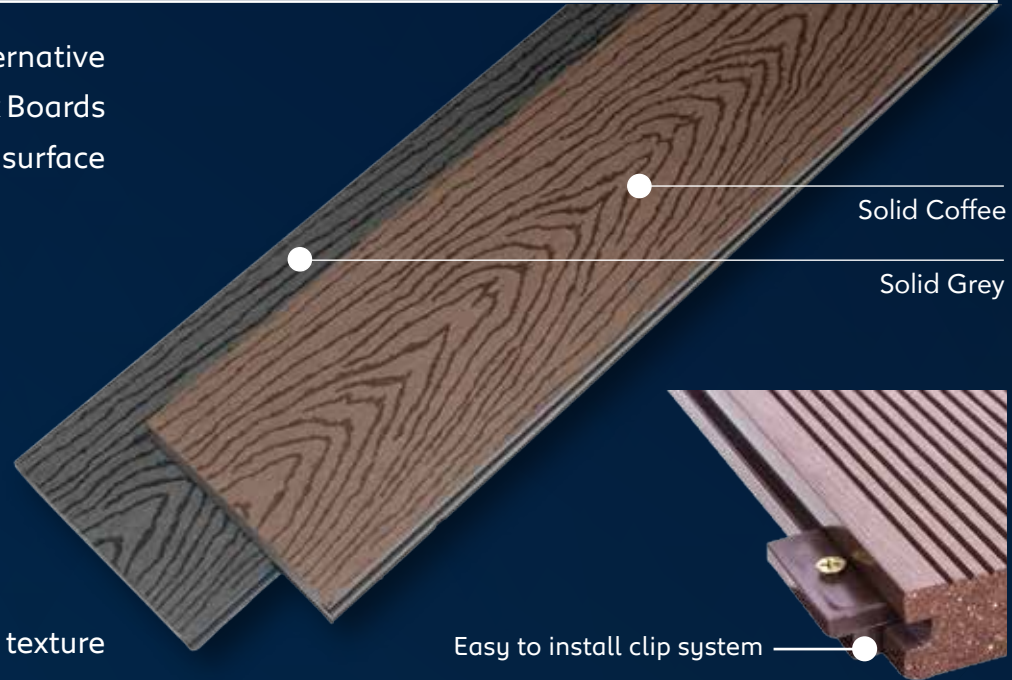

Lotex Solid Composite Decking is a wood deck alternative requiring very low maintenance. Lotex Composite Deck Boards are installed using a clip system resulting in a smooth surface without any visible screws.

FEATURES:

- No cracking, warping or splitting
- Water proof, corrosion-resistant and non-toxic
- Low maintenance with no painting required
- Easy to install
- Weather resistant and durable
- UV and color stability
- Eco-friendly
- Composite boards are reversible for an anti-slip texture

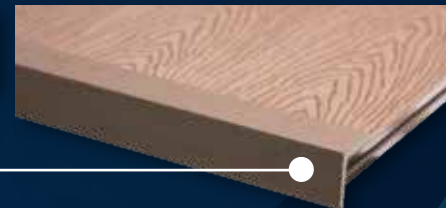

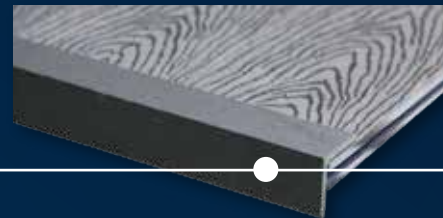

End plates are supplied in solid grey and solid coffee for a quality finish to your Lotex Composite Deck
